

10 WAYS INNOVARE ARE SIMPLIFYING SUSTAINABILITY

1

MATERIALS

Nature-based panelised construction

2

MANUFACTURING

Automation ensuring optimum efficiency

3

TRANSPORT

Fewer journeys and people

4

LIFETIME COST

Reduced running costs and maintenance

5

LESS ENERGY

Better thermal performance

SEQUESTERED CARBON

60 year lifespan of buildings storing carbon into the future

6

ENERGY IN PRODUCTION

Factory manufacturing more efficient

7

8

DEVELOPMENT

BIM ensures efficiency designed in from outset

9

UK BASED

Reduced cost of having all design to delivery processes UK based

10

WASTE

Less in production as recycled, less on site with assembly
